DETAILED ACTION

1. The amendments filed September 26, 2002 has been entered. It is noted that in view of the new amendment practice under 37 CFR 1.121 which became mandatory for all amendments on March 1, 2001, and due to the limited amount of examining time per application, if the amendment contains changes to existing language that requires a marked-up version showing those changes, the Examiner is relying upon the marked-up version(s) for examination of the application. It is applicant's responsibility to ensure that the clean version(s) is (are) the same as the marked-up version(s). It is further noted that the clean version(s) is (are) considered to be the Official version(s).

2. Upon careful reconsideration, the indicated allowability of claims 32-36 and 38-41 is withdrawn. Any inconvenience caused by this action is regretted, and accordingly, this Office action is **non-final**. Applicant is invited to contact the Examiner to further discuss any outstanding issues.

Claim Rejections - 35 USC § 112

3. Claims 32-37, 40 and 41/40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3724

In claim 32, lines 5-7, structural cooperation is not sufficiently provided between the layers, and it is suggested in line 6 to change "and" to --overlying-- or the like.

In claim 40, lines 4-5, the recitation "of dimensions suitable for placement on a razor cartridge" is vague and indefinite as to the dimensions being set forth, particularly since it is not clear as to the relationship between "a razor cartridge" in lines 4-5 and that in line 1; in lines 6-8, structural cooperation is not sufficiently provided between the layers, and it is suggested in line 8 to change "and" to --overlying-- or the like.

Claim Rejections - 35 USC § 102/103

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3724

6. Claims 32-35 and 37-41 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Creasy et al., pn 4,875,287.

Creasy discloses a skin engaging member and a razor cartridge comprising a skin engaging member with every structural limitation of the claimed invention including a skin engaging layer (e.g., 22') and a non-skin engaging layer (e.g., 22).

In the alternative, if it is argued that there is no explicit description disclosed regarding the colors of the layers, the Examiner takes Official notice that it is old and well known in the art to make the lubrication strip and the cap two different colors for various known reasons including aesthetics. Therefore, it would have been obvious to one having ordinary skill in the art to make the skin engaging layer and the non-skin engaging layers different colors for the well known benefits including that described above.

Allowable Subject Matter

7. Claim 36 appears that it would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clark Dexter whose telephone number is (703) 308-1404. The examiner's typical work schedule is Tuesday through Friday, and he can be reached during normal business hours on these days.

Art Unit: 3724

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Allan Shoap, can be reached at (703)308-1082.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703)308-1148. The fax numbers for this group are: formal papers - (703)305-3590; informal/draft papers - (703)305-9835.
